

**FEDERAL UNIVERSITY OF TECHNOLOGY, OWERRI
SCHOOL OF HEALTH TECHNOLOGY
DEPARTMENT OF PUBLIC HEALTH**

POST GRADUATE EXAMINATION RAIN SEMESTER 2017/2018 SESSION

COURSE CODE: PUH 840 COURSE TITLE: Health Promotion Theories DATE: 05/03/2018

ANSWER ANY FOUR QUESTIONS. ALL QUESTIONS CARRY EQUAL MARKS 2HRS.

1. Describe the stages of **Model of Change** as propounded by Kelman.
2. Free Cervical Cancer Screening Programme has been proposed by your State Government. Employ the **Health Belief Model** to predict possible uptake of this service by women.
3. **Theory of Reasoned Action** has been useful in studying intent to perform an action. Explain this theory highlighting its strength.
4. Organisational change is commonly resisted by members of the organization, but change is permanent. Explain how you can bring about this desired change using the **Field Force Theory** by Kurt Lewin as a framework.
5. Participation is one of the principles of Adult Education. Explain the **Theory of Participatory Education** by Paulo Freire.
6. Physiological needs must be met before the higher needs. Diagrammatically represent **Abraham Maslow's Hierarchy of Needs**.

Good Luck.
